Premium Ginseng Exosome Therapy

EXONUS

EXONUS

Exosome (Ginseng, CICA) + PDRN + Collagen + Peptides

EXONUS: Premium Ginseng Exosome Therapy

Exosome (Ginseng, CICA) + PDRN + Collagen + Peptides

EXONUS provides an all-in-one facial solution to boost collagen production, reduce inflammation, and slow the signs of aging, restoring a youthful glow. It includes two vials: Lyophilized Powder and Diluent.

AMPOULE 1 *(Lyophilized Powder)*

Lyophilized Powder promote the delivery of growth factors and proteins that enhance regeneration and hydration.

AMPOULE 2 *(Diluent)*

Diluent optimizes the absorption of active ingredients.

Product Feature

EXONUS is the next generation of exosomes, powered by an advanced formula that combines premium components—Ginseng and CICA Exosomes, Collagen, and Peptides—to promote cellular renewal, visibly enhance collagen production, calm inflammation, and slow the signs of aging, ultimately restoring the skin to a youthful radiance.

Product Name	EXONUS
Product Category	Exosome Therapy
Package	No.1 Lyophilized Powder : 100mg x 5 vials No.2 Diluent : 6mL x 5 vials
Ingredients	Exosome (Ginseng, CICA) PDRN Collagen + Peptide Complex Skin Brightening Agents and Antioxidants

Main Ingredients

● Exosome (Ginseng, CICA)

- High-purity exosomes derived from plants (*Centella Asiatica* Callus Extracellular Vesicles) and Callus Cells of the Ginseng Plant
- Ultra-nano particles containing approximately 10 billion purified high-purity exosomes

Panax Ginseng Callus
Extracellular Vesicles

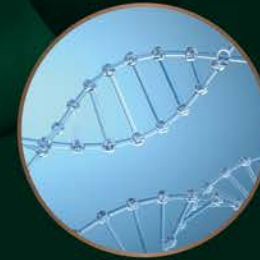

Centella Asiatica Callus
Extracellular Vesicles

Exosome
(Ginseng, CICA)

● PDRN

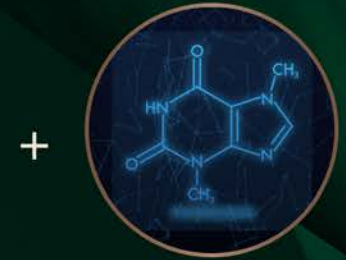

- High-purity PDRN 60,000 ppm
- Premium medical grade PDRN extracted from Alaskan Salmon DNA and produced by an industry-leading French manufacturer

PDRN

Atelocollagen and
Peptide Complex

Skin Brightening Agents
and Antioxidants

● Collagen + Peptide Complex

- Atelocollagen (Premium 4th Generation Soluble Collagen)
- Premium Peptide complex sourced from 99% high-purity raw materials

● Skin Brightening Agents and Antioxidants

- Arbutin, Tranexamic Acid, and Ascorbic Acid as synergistic skin-brightening agents for enhanced radiance and hyperpigmentation reduction
- Glutathione, a potent antioxidant for skin protection, even tone, and a radiant complexion

Benefits of EXONUS

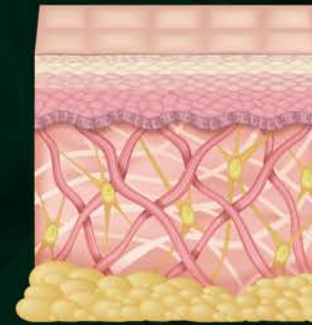

BEFORE

- ▼ Keratinocytes
- ▼ Collagen
- ▼ Elastin
- ▼ Fibroblasts
- ▲ Wrinkles
- ▼ Elasticity

AFTER

- ▲ Keratinocytes
- ▲ Collagen
- ▲ Elastin
- ▲ Fibroblasts
- ▼ Wrinkles
- ▲ Elasticity

● Promote Healing and Regeneration

Exosomes contain proteins, lipids, and other molecules that aid in skin repair and regeneration.

● Lighten Hyperpigmentation

Powered by Ginseng and CICA exosomes, these bioactive compounds promote an even skin tone and help diminish pigmentation issues.

● Promote Skin Repair

Exosomes increase transforming growth factor-beta (TGF- β), aiding in skin regeneration and repair for a healthier complexion.

● Reduce Oxidative Stress

Exosomes decrease reactive oxygen species (ROS) levels, protecting the skin from oxidative damage and premature aging.

Treatment Procedure

- 1)** Open the cap by tilting it back in the direction of the arrow, then remove the stopper from both Ampoules.

- 2)** Put the “No. 2” into “No. 1”.

- 3)** Shake it to dissolve Lyophilized Powder of No. 1 completely.

● Storage and Handling Precautions

- 1. Keep out of reach of children.*
- 2. Store away from direct sunlight.*
- 3. Do not reuse the product after the first use, as it is intended for single use only.*

● Usage Precautions

- 1. If you experience any redness, swelling, itching, or other irritation during or after use due to exposure to direct sunlight, consult a dermatologist.*
- 2. Avoid using on areas with wounds or other skin irritations.*
- 3. Avoid contact with the eye area.*

Comprehensive Solution, Visible Results

EXONUS : Powerful Regenerative Complex
