

PN Skin Booster

Pure

Pure by Nature, Backed by Science

Pure series is where the purity of nature meets the precision of science. Formulated with naturally derived Polynucleotides from Alaskan salmon and held to medical grade standards.

PURE offers skin solutions that are as safe as they are effective. Every drop is purposefully designed free from unnecessary additives, focused on clinically proven regeneration.

P for Precision
U for Uncompromised
R for Regeneration
E for Evidence

That's what **Pure** stands for.

Pure

Pure Eyes

Pure Pro

Composition	Polynucleotide (PN) 2mg	Polynucleotide (PN) 2% + Hyaluronic acid 10mg + 3 Peptides + 7 Amino acids
Application area	Under eye	Face, Neck, Hands, Elbow
Packing unit	1.1 ml / 1 syringe	2.2 ml / 1 syringe

Benefits of Pure

SKIN REPAIR

Boosts cell renewal and stimulates new cell growth, promoting collagen production.

REJUVENATION

Promotes a more youthful and rejuvenated complexion by boosting collagen levels.

HYDRATION

Works by attracting and retaining moisture in the skin, improving hydration.

ELASTICITY IMPROVEMENT

Stimulates elastin to increase skin elasticity.

SKIN TONE IMPROVEMENT

Improves pigmentation and skin tone by increasing the thickness and density of the dermis.

PORE TIGHTENING

Provides pore tightening effects by filling open pores from within the skin.

Ingredients

Polynucleotide

Polynucleotide (PN) is a highly purified polymer extracted from salmon DNA, recognized for its excellent biocompatibility and regenerative effects.

It activates fibroblasts to significantly boost the production of collagen and elastin, which are essential for maintaining skin firmness, elasticity, and structural integrity.

DNA

PN
Premium Medical grade

Pure

Why Pure?

Purest PN

- Extracted from Alaskan salmon DNA and made in France by the world's leading manufacturer

Premium formulation

- Premium medical grade PN with very low impurity
- Designed to be with low viscosity to prevent unsightly swelling and bruising after the treatment

Ingredients

Hyaluronic Acid

When hyaluronic acid is injected directly into the dermis, it immediately enhances the skin's moisturizing power, improving weakened elasticity and rough texture.

As a result, the skin becomes smoother and more radiant.

It can be safely combined with PN-based skin boosters, which are effective for regeneration, leading to optimal treatment results.

Ingredients

Peptides

- **Acetyl Hexapeptide-8**

A neurotransmitter-inhibiting peptide that effectively reduces wrinkles by acting on the skin's surface layer.

- **Octapeptide-4**

Protects the skin from free radicals that cause aging, helping prevent oxidative damage and promoting a more vibrant complexion.

- **Palmitoyl Pentapeptide-4**

Stimulates collagen production, elastic fibers, and hyaluronic acid, improving the skin's moisture content and retention. It also increases skin thickness and reduces fine lines.

Amino Acids

PURE PRO contains key amino acids that enhance collagen synthesis.

INGREDIENTS	EFFECTS
Glycine Proline L-Hydroxyproline	Collagen production Growth factor generation Promotion of collagen synthesis
Leucine Glutamin L-Lysine Methionine	Skin fibroblast activation + Natural moisturizing factor

Application area

Application area for Pure eyes

- UNDER EYE

Application area for Pure pro

- FOREHEAD
- CROW'S FEET
- CHEEK
- NECK
- BACK OF HAND
- ELBOW

Recommended sessions

- 3 sessions (2~3 weeks interval)

How long does it last

- 6 months
